## “HAPPY NEW YEAR “

Welcome to 2012 – a year of transformations and transitions. A year of chaos and a year of growth. A year where our mother earth is still reclaiming and a year of new beginnings.

A year of family and thankfulness.

A year of gratitude and appreciation.

It is up to YOU to carve YOUR path of happiness through commitment, drive, truth, happiness, honesty, Respect and of course love.

All about me – update - Recent articles for the NZWW - April Iremeia on the cover is your 2012 Numerology and a delightful article on ‘what women eat’ which features yours truly.

Within the next two weeks you will see Chinese Astrology – the year of the Water Dragon and Gardening by the Moon.

And of course the weekly dream column is proving a very popular read – so keep sending in those dreams.

My website is getting a make over as well as new business cards and I am doing more corporate work now, so recommend me for those facilitation, team building and mentoring days.

I will be sending out two weekend Retreat dates shortly for March and April; they will be held in Auckland and Waikato, please let me know your interest in advance so I can make arrangements.

It is a weekend packed full of goodness.

The next two months will be extremely busy doing all your new year forecasts, please ensure you book in Early to secure your appointment.

I highly recommend one and a half hour appointments for your reading and to have your Chakras cleared and re-aligned with Reiki to start the New Year off RIGHT!

I also recommend home and business clearings. This is to remove all the old, negative, painful, non productive, toxic energies of 2011 and to bring in fresh, clean, abundant prosperity fortunes for 2012.

Please email or phone me for a full analysis.
